Hello,
My name is
Coronavirus.

People call me in
many different names...

COVID - 19

Coronavirus

But don't worry!
I will tell you many
ways to keep yourself
safe and healthy.

Wash your hands
with soap and water!

This will stop the
germs from
spreading. Sing along
to your favourite
song as you wash your
hands.

If you can't use soap,
use a hand sanitizer instead.

When you are outside, distance
yourself with other people.

Too far!

This will prevent the virus
from spreading!

Protect yourself from
the virus outside.
Stay home with your
family while school is
closed.

And you should be safe.
